## Why We Believe Colossians 1:15-17 Pastor Kirk Gambrell

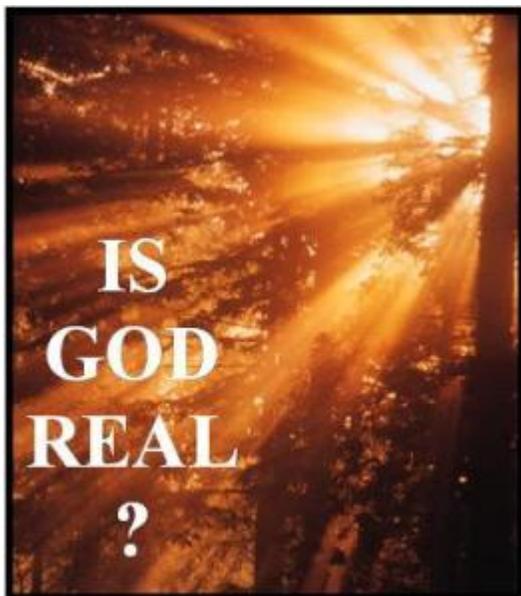

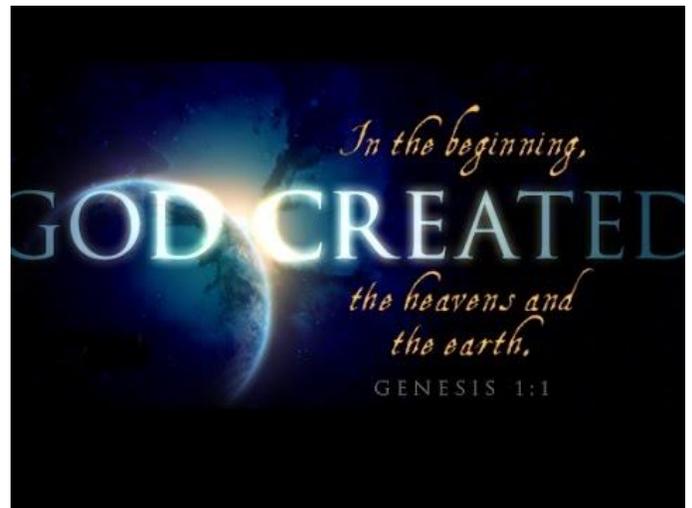

Vol. 8 Num. 5

### Using This Study

This study is designed to be used as part of our Sunday morning worship at CLBC.

Most of the questions will be talked about during our 9:45 Worship service. We will then have follow up time in small groups at 11:00.

If you would like to use this as a bible study starting point you can record your answers to the questions on Sunday morning and keep them for further study.

This week we are starting new series on why Christians believe what they believe. In this 6 week series we will cover 6 topics that many non-believers struggle with when it comes to God. We would like to suggest that you keep the questions and your recorded answers so that you will be prepared to address these issues in the future, and possibly use them to lead your own study. This week we will address the question “is there a God?” It does not do any good to debate “who God is” until we all agree that there is a God. Once we see the evidence that there is a God then we will move to discovering who He is. But for this week, how do we know He is there?

3. How does the law of thermodynamics support the existence of God? (science)  
*The second law of thermodynamics teaches us that nature is tending toward disorder and chaos.*

4. How does the existence of morality (an instinct of right and wrong) support the existence of God? (morality)

5. Make a list of the evidence for God and against God and compare the list?
